Profile Summary

qualified Auto Electrician with 16+ years experience in diagnosing, repairing and maintaining electrical systems in a variety of vehicles, Proficient in computer aided diagnostics (CAD) with the ability to adapt quickly to new technologies and industry developments. Able to work independently or as part of a team, with a keen attention to detail and demonstrated excellence in customer service and communication

I seek the challenging career- oriented position in Auto Electrician / Technician occupation to gain professional work place in reputable Company. Whereby I would apply my performing skills working experience in various Automotive Electrical repairing, several maintenance, manufacturing service of vehicles, bench work to contribute the Company's goal vision in a challenging and fast growing environment

Professional Skill

- Electrical Repair
- System wiring
- Auto Diagnosing
- Diagram reading
- Ecu's re-mapping
- Battery Engineering
- Engine management
- Preventative maintenance

Relevant Skill

- Customer service
- Attention to Detail
- Problem Solving
- Crimping
- Hand tools
- Ecu's re-mapping
- Oil change
- Starters & Ignition Systems
- Lighting Systems
- Test Equipment

Education & Certificate

High school diploma   *2001*
Nablus school

Auto electric certificate   *2008*
Lutheran institute

Work Experience

Automotive technician/electrician   *2013 - 2024*

Palestine - EcuTechno

I worked in a car maintenance workshop. The owner of the workshop was relied upon to perform electrical tasks, diagnose faults, and improve vehicle performance. One of my tasks

- Inspecting and diagnosing mechanical and electrical faults in the vehicle
- Repairing electrical faults, connecting and replacing wires and sensors
- Download the vehicle software and update or develop it to improve performance and fix errors. ecu, tcm, ecm, bcm
- Relearning gearbox and update software , and other relearning work tpms,lighting, injection and more
- Airbag fix and clean recording & odometer & navigation systems
- Fix engine exhausting system by cleaning or disabling if it wanted
- Immobilizer and key programming

Mmaintanance supervisor   *2007 - 2015*

Israel - Hamat Group

I worked in a huge plastic factory, and my tasks were preventive maintenance of machines, installing robots on production lines, mechanical maintenance, electrical maintenance, and installing molds. After working for six years in this company, I asked to resign for the sake of my own work. The company did not want to dispense with my services, and I signed a contract with them to work as a maintenance contractor. I continued working until the end of 2023.

Automotive expertise skills

- Engine Fault Finding & Diagnostics ,Replacement worn components
- Transmission Diagnosis of Faults clutch replacement,fly weel replacement
- Wheels & Tyres repair and replacement , tyre balancing & brake pad replacement
- Cooling System Diagnosis ,thermo replacement, radiator & pump , flush fill bleed replacement
- Electronic Fuel injector System , Clean and Optimize
- SRS & Airbag System with crash date clean
- Performance Exhaust Systems , repair , leak repair , modifying by ecu
- Replacing and checking the engine and transmission oils, knowing the appropriate type according to the car and its condition
- Replacing the bricks. Drums, maintenance of the suspension and stability system, and replacement of engine parts
- Preventive maintenance of the vehicle, writing vehicle condition reports, and improving performance with the computer
- Injection maintenance and cleaning. With programming and identifying it with the computer in case it is replaced
- Installing alarm systems, displays, cameras and other vehicle accessories
- Changing language in cars and programming eprom memory

Ecu's software skills

- OPenECU-FS (BSW,Simulink,c)
- VCM suite (Hptuners) with mpvi3
- Alientech software with obd or benchboot connection. Using kess3 and k-tag
- WinOls 4 to written and modify memory contents of ecu's . And i have good database of maps for almost car model about 500 gigabyte
- Stagex ecu titanium or winols embedded. Best solution to make stable modifications in ecu car .
- Autocom , Diagbox , multidiag , vcds , odis , xentry . Software for diagnosing dtc and some simple re-coding

Diagnostic Tools

- Autel MaxiSys 909 , 5 in 1 vcmi 50+ function, ecu programing for 6+ brand , best features is connected to alot of testers
- XTOOL D9S PRO ,Swift performance , support
- can fd protocol and offline programing for some cars and good support for immobilizer and key programming
- BlueDriver obd2 . To speed test support ful-diagnostic and service reset

Llanguage

- Arabic : Native
- English : Profissional
